

Bossier Parish Community College  
Master Syllabus

**Course Prefix and Number:** TEED 153

**Credits:** 3-2-2

**Course Title:** Hydraulic/Fluid Dynamics with Lab

**Course Prerequisite:** MATH 099

**Course Co-Requisite:** TEED 101

**Textbook(s):** Klette, Patrick. Fluid Power Systems, 2<sup>nd</sup> edition. American Technical, 2013.  
ISBN: 9780826936349

**Course Description:** A course designed for the industrial skilled apprentice. Major topics include pressure units applicable to hydraulic systems, Pascal's Law, transmission of energy in hydraulic systems, mechanical advantage, pumps, motors, accumulators, cylinders, maintenance, safety, preventative maintenance, and troubleshooting.

**Learning Outcomes:**

At the end of the course, the student will:

- A. demonstrate familiarization with symbols and terminology used to design, develop, and analyze hydraulic systems and pneumatic systems;
- B. determine and measure force transmitted through hydraulic systems and pneumatic systems;
- C. describe Hydraulic Principles;
- D. describe Pneumatic Principles; and
- E. demonstrate fluid and pneumatic characteristics and applications

To achieve the learning outcomes, the student will or will be able to:

(The letter designations at the end of each statement refer to the learning outcome(s).)

1. define terminology and measurement used in hydraulic/pneumatic circuits; (B)
2. describe how hydraulic/pneumatic transmission of force and energy is accomplished; (A,B)
3. describe the operation at the suction side of a pump; (C)
4. list different types of hydraulic/pneumatic actuators; (C, D)
5. describe how control of hydraulic/pneumatic energy is accomplished; (E)
6. identify check valves, accumulators, and cylinders; (C, D)
7. identify directional valves and explain the difference between 4-way, 3-way, and 2-way controllers valves; (C, D)
8. draw the symbol and explain operation of "flow control"; (A, B, C, D)
9. explain the uses of pressure control valves, pumps, and hydraulic motors; (C, E) and
10. describe hydraulic fluids, reservoirs, coolers, and filters. (E)

**Course Requirements:** Complete all homework assignments, lecture tests and final exam.

Revised: 2/17/2022

**Course Grading Scale:**

90 – 100 = A  
80 – 89 = B  
70 – 79 = C  
60 – 69 = D  
0 – 59 = F

**Attendance Policy:** The college attendance policy is available at <http://catalog.bpcc.edu/content.php?catoid=5&navoid=369>

**Course Fees:** This course is accompanied with an additional non-refundable fee for supplemental materials, laboratory supplies, software licenses, certification exams, and/or clinical fees.

**Nondiscrimination Statement:** Bossier Parish Community College does not discriminate on the basis of race, color, national origin, gender, age, religion, qualified disability, marital status, veteran's status, or sexual orientation in admission to its programs, services, or activities, in access to them, in treatment of individuals, or in any aspect of its operations. Bossier Parish Community College does not discriminate in its hiring or employment practices.

**COORDINATOR FOR SECTION 504 AND ADA**

Angie Cao, Student and Disability Services Specialist

Disability Services, F-254

6220 East Texas Street

Bossier City, LA 71111

Phone: 318-678-6511

Email: [acao@bpcc.edu](mailto:acao@bpcc.edu)

Hours: 8:00 a.m.-4:30 p.m. Monday - Friday, excluding holidays and weekends.

**Equity/Compliance Coordinator**

Teri Bashara, Director of Human Resources

Human Resources Office, A-105

6220 East Texas Street

Bossier City, LA 71111

Phone: 318-678-6056

Hours: 8:00 a.m.-4:30 p.m. Monday - Friday, excluding holidays and weekends.
