

## **Bossier Parish Community College Master Syllabus**

**Course Prefix and Number:** ISAF 111

**Credits:** 2-2-0

**Course Title:** Safety, Health & Environment

**Course Prerequisite:** MATH 099

**Textbook(s):** Safety, Health & Environment, NAPTA 2<sup>nd</sup> ed. 9780135572498, Pearson

**Course Description:** This course is an introduction to the various aspects of safety, health and environment related to process technology. The course includes an overview of hazards in a plant environment, hazard controls, elements of process safety management, emergency response, and inherent risks of process industries.

### **Learning Outcomes:**

At the end of the course, the student will:

- A. recognize various types of Safety, Health and Environmental hazards in a plant environment and discuss the consequences of these hazards;
- B. demonstrate knowledge of the various types of hazard controls (administrative, engineering, personal protective equipment) and discuss methods of applying these controls;
- C. identify elements of Process Safety Management and discuss how they work together for the safety of plant personnel;
- D. discuss how to respond to various types of emergencies (fires, spills, vapor releases, natural disasters, etc.);
- E. discuss the vulnerabilities, risks and threats associated with the process industries (terroristic, cyber security, workplace violence, suspicious activities, etc.)

To achieve the learning outcomes, the student will:

(The letter designations at the end of each statement refer to the learning outcome(s).)

1. Develop basic understanding of the various types of Safety, Health and Environmental hazards in a plant environment and discuss the consequences of these hazards; (A)
2. Develop basic understanding of the various types of hazard controls (administrative, engineering, personal protective equipment) and discuss methods of applying these controls; (B)
3. Describe elements of Process Safety Management and discuss how they work together for the safety of plant personnel; (C)
4. Define how to respond to various types of emergencies (fires, spills, vapor releases, natural disasters, etc.); (D)
5. Develop basic understanding of the vulnerabilities, risks and threats associated with the process industries (terroristic, cyber security, workplace violence, suspicious activities, etc.) (F)

**Course Requirements:** Scientific Calculator

**Course Grading Scale:**

90 – 100 = A

80 – 89 = B

70 – 79 = C

60 – 69 = D

0 – 59 = F

**Attendance Policy:** The college attendance policy is available at <http://www.bpcc.edu/catalog/current/academicpolicies.html>
